The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1, 3, 4, 9, 11-14 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. There is not disclosure for both the pin 48 and the catch being movable or the catch being movable.

The merit to the claims are pending per the response to the 112 first paragraph above.
